

Night Hike

This is a great activity to do around the Winter Solstice, when it gets dark early. You can also do this as an all-section meeting, since the activity is appropriate for a wide variety of ages. You can start your hike at 5 pm and be done by 6:30 or so.

Some ideas for night hikes:

- Use your headlamps/flashlights as little as possible to let your eyes adjust
- Use your other senses: hearing, touch, smell
- Think about how the forest is different at night from how it is during the day

Items Needed:

- Remind scouts to bring headlamps or flashlights
