

Dashboard & Registrations

All Groups and Scouts are tracked at the National Level using a database called “Dashboard”. This is also the software we use to keep track of Criminal History Checks for adult members. You can log in via the main homepage or get there directly by going to <https://outdoorserviceguides.org/dashboard/>.

To access Dashboard, you will need to create an account. Generally accounts are held by the GSM and/or secretary of a group, whoever will be handling the national registrations. Once you have created an account, you can email your regional commissioner to be added as a leader of the appropriate group. That will allow you to register members to that group and see current members. It also gives you access to the security report for your group, which shows a list of all adults whose background checks are more than two years past due or who have not yet completed one.

A couple of important things: the leader list for each group is how we track who the GSM is so that we are able to contact them. Also for Criminal History Checks to go through seamlessly, ensure that the name entered in dashboard is their legal name and that their date of birth is accurate.

Using Dashboard

Once you create your account, your profile will look like this:

The screenshot shows the 'Account Dashboard' for 'OUTDOOR SERVICE GUIDES'. The user is Liz Kelly-Campanale, with email info@22ndwildwood.org and an account created on January 22, 2025. There is an 'Edit Profile' button. Under 'My Members', there is a table with columns: Name, Section, Group, and Next Renewal With Pause. The table currently shows 'No results found.'

Name	Section	Group	Next Renewal With Pause
No results found.			

If you are already registered as a scout, your profile can be linked to your existing membership. Otherwise, you will need to register as a member first. You can then be linked to your group. Once that has been accomplished, your profile will look something like this:

If you click on your group name, it gives you information on charter renewals and access to a list of group members, the organization of your group, and the group security report, which shows out of date or incomplete criminal history checks. If an adult member has a valid and current criminal history check on file, they will NOT be listed on the security report. It shows out of date members only.

“View Members” will give you access to all of the group members and allow you to renew their memberships. If their membership is tied to your account as the one who registered them, they will also show up on your main dashboard page.

“Group Organization” allows you to update the list of leaders within your group. You can also add patrols here and divide up the sections that way, but it is not necessary. The most important person to list on this page is the GSM, as this is how National knows who to contact for your group.

“Group Sharing Settings” allows you to give access to another user to manage your group. If you have a group registrar/secretary or a co-GSM, the group can only be associated with one profile, but you can share it to those other profiles. If your group only has one person managing dashboard, you can leave “Turn on group sharing” unchecked.

“Private Registration Settings” is similar to Group Sharing Settings, but for Member Registration as opposed to Group Management. Again, if you have a group registrar/secretary their account should be listed here. If you turn on Private Registration, it means that only the designated Registrars may add scouts to your group. If you have your members create their own dashboard accounts and register themselves, you would turn this option off.
